

FOREST HILL GARDEN CLUB
APRIL PROGRAM

UNIQUE FLORAL DESIGN
Monday, April 16 @ 1:00 p.m.

Did You Know?

You can create the foundation for a unique arrangement from the green plant materials around your own home and the gardens of your friends? With the addition of a few interesting flowers from the flower market, your favorite grocery store, or your favorite garden plants, you have the makings for unique beauty!

Learn How:

Our friend and neighbor, *Eva Monroe* will share her bag of floral tricks with you in a classroom setting in the Club House.

Please Bring:

- Green cuttings from your yard (or friend's yard) of different varieties and length, texture and size. Think at least 12" tall
for some materials. Look for greens that have different colors of green, hang down, grow straight up or have interesting branches. Bring at least 4-6 cuttings from the same plant.
- Flower shears
- A bucket to hold your plant materials
- A favorite container to hold your finished arrangement

Everything else will be provided## --- Because this is a classroom set-up, space is limited.
